Connection Guide

1 How to connect

Objective
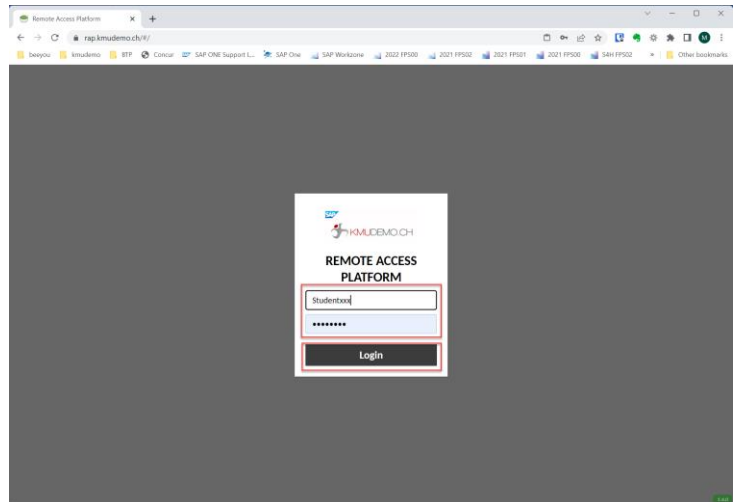

Establish connection to the training landscape using the provided Remote Desktop Services infrastructure.

The only requirement is a major browser.
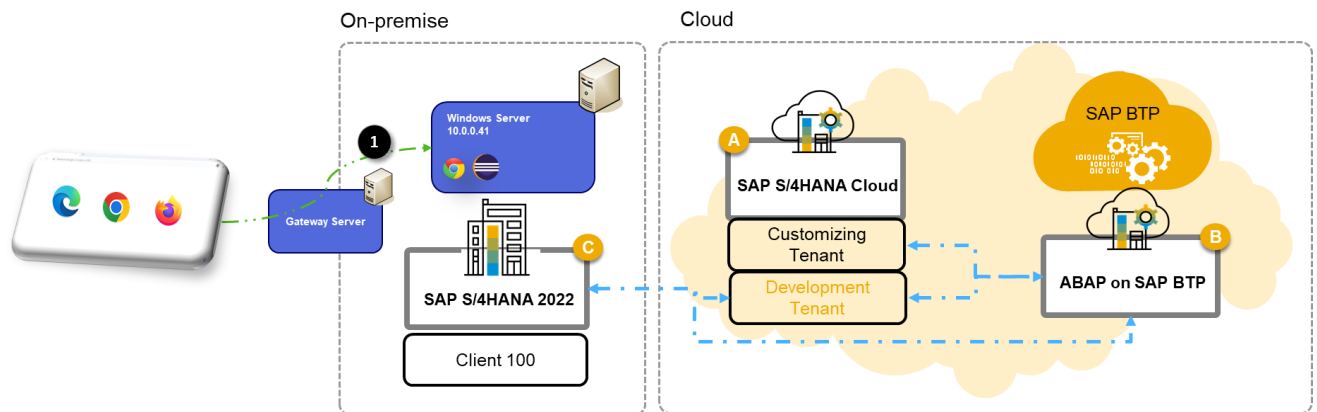

1.1 Establish connection to the central Terminal Server

1. Start a browser window

2. Connect to **https://rap.kmudemo.ch**

3. Enter your credentials
   (see cheat sheet).

   i.e. STUDENTxxx

4. Click on Login

5. You are now connected to the Terminal Server.

2 Language and Keyboard Settings on Terminal Server
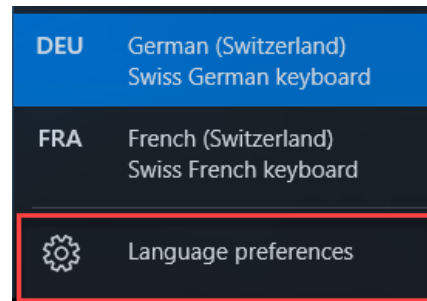

2.1 Change the language and keyboard

1. Click on the language bar

2. Choose your preferred language (predefined languages)

3. Click on Language preferences to add other settings
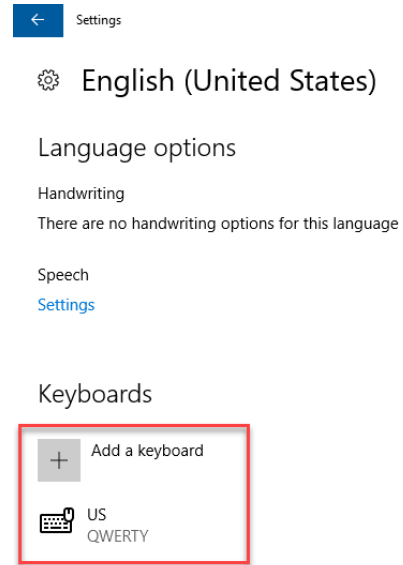

4. Click Add to select the language of your choice.

5. Click on your preferred language

6. Click Options to select the keyboard layout.

7. Add or select your preferred keyboard layout
